

PETAN EXHIBITION BROCHURE (Updated July 2024)

The Petroleum Technology Association of Nigeria is an association of Nigerian indigenous technical oilfield service companies that offer services across the value chain of the oil and gas industry. The association was formed to create a forum for Nigerian oil and gas entrepreneurs to exchange ideas with major operators, policy makers and relevant stakeholders in the energy industry and its linkage sectors.

As the leading and largest advocacy group of energy professionals with over 30 years experience, PETAN promotes local content participation through the development of competencies and capacities as well as the domestication of innovative engineering solutions and technologies.

PETAN continues to grow exponentially in membership, forging partnerships nationally, regionally & internationally to catalyze the growth of the industry through local content development, and meeting the right people in the industry to help shape legislations guiding oil and gas operations in Nigeria with the aim of providing the enabling environment for business to thrive while ensuring good returns on investments (ROI).

MISSION STATEMENT

“To promote the DOMESTICATION of petroleum technology by striving for FAIR and extensive PATRONAGE of EFFICIENT and COMPETITIVE INDIGENOUS Oilfield Service companies in Nigeria”.

OBJECTIVES OF PETAN

1. To acquire, develop, advance, and promote petroleum technology for the benefit of Nigerians.
2. To foster co-operation as well as high ethical standards amongst indigenous technical oilfield service companies.
3. To monitor and work to improve the performance and quality of services rendered by member companies.
4. To ensure and encourage fair patronage of member companies by oil-producing companies in Nigeria.
5. To liaise with Government on matters affecting the interest of members.
6. To educate and advice Government and its agencies on developments in the Oilfield Services sector of the Nigeria economy.
7. To promote the economic well-being and social welfare of the Oilfield environment and the larger society.
8. To embark on and promote research and development in the Oilfield Services sector.

TECHNICAL INTEREST GROUPS (TIGs)

Although there are several dozens of Nigerian Technical Oilfield service companies in Nigeria, PETAN comprises of over 100 member companies with different categories of services in the oil and gas industry covering thirteen technical interest groups categorized below:

- Electric Line Formation , Evaluation and Well Intervention Services
- Engineering Design, Planning and Related Services
- Fabrication and Construction Services
- FEWD/MWD/LWD/DD Services
- HSE And Training Services
- Metering, Automation, Instrumentation, Control, Electrical And Telecoms Services
- ROV Technology
- EPL of Pipelines & Facilities & Services
- Production Services
- Reservoir Engineering/Geological and Geophysical Services
- Well Engineering & Well Completions & Well Services
- Engineering, Procurement, Commissioning & Installation Services

MEMBERS' DIRECTORY

Accelerated Compact Energy Solutions

Services: engineering, maintenance and production services for rapid and cost-effective development and optimization of oilfield assets, field development, well intervention and production optimization solutions

Additional Oilfield Services Limited

Services: Slickline Well Completion;
BHP Survey/Slickline Zone; Change Out;
Wax Cutting/Swabbing/Slickline Fishing;
Communications Check/Gaslift Valve Change Out;
Slickline Re-completions/Open and Close SSD
SC-SSV Change Out/Storm Chokes; Slickline Well Depths Measurements
Plug Setting and Pulling
Workshop; Redress/Completion Services;
Tubing Check/Marine Support;
Stimulation Upfront Slickline Services
First and Second Line Wellhead Maintenance
Up-front Slickline for the Rig Re-entry and Material Supplies;
SCSSV/Storm Choke Inspection
Surface Well Clean-up Testing,
Mechanical Perforations
Electric Line Services
Downhole Plugs, Scssv and Accessories Supplies.
